## MICROBLADING

### **FULL PROCEDURE** £280

Microblading is the manual process of introducing semi-permanent makeup, in the form of coloured pigments, to mimic hair on the eye brows. The design is waterproof, smudge proof and results look natural and flawless. This technique enables us to achieve fullness and shape by mimicking hair where no hair existed previously. Results last up to 12 months, after which time the pigment fades leaving the skin and your natural brows exactly as they were. A colour boost is recommended annually to maintain your new look.
